### **NEW QUESTION: 1**

You need to configure a cloud service to store the secrets required by the mobile applications to call the share.

What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE:

Each correct selection is worth one point.

### **Answer:**

Explanation:

Explanation

Every request made against a storage service must be authorized, unless the request is for a blob or container resource that has been made available for public or signed access. One option for authorizing a request is by using Shared Key.

Scenario: The mobile applications must be able to call the share pricing service of the existing retirement fund management system. Until the system is upgraded, the service will only support basic authentication over HTTPS.

The investment planning applications suite will include one multi-tier web application and two iOS mobile application. One mobile application will be used by employees; the other will be used by customers.

**NEW QUESTION: 4**

Teara is a Workspace Owner. She has discovered that projects and key decisions are being discussed via direct messages, because public channel message retention settings are set to delete messages after 20 days. The decision regarding this setting was made 2 years ago, and now the setting is no longer required.

Team members are experiencing difficulty creating channels. Teara is wondering if there are other settings she should review that might be contributing to the direct message conversations.

Which settings and permissions should Teara change to promote increased communication outside of direct messages?

- A. Sending an announcement in the #general channel notifying everyone to move conversations to channels and to DM Teara if you need a channel created
- B. Changing the workspace's public channel message retention and deletion policy to "Keep Everything", changing the direct message retention and deletion policy to delete messages after 1 day, and allowing everyone to create channels
- C. Changing the workspace's message retention and deletion policy for all channels and direct messages to "Keep Everything" and allowing everyone to create channels
- D. Changing the workspace's public channel message retention and deletion policy to "Keep Everything", changing the direct message retention and deletion policy to delete messages after 1 day, and restricting the creation of channels to Owners only
