NEW QUESTION: 1

Which of the following should be the MOST important consideration when deciding areas of priority for IT governance implementation?

- A. Assurance reports
- B. Performance indicators
- C. Business risk
- D. Process maturity

Answer: C

Explanation:

Priority should be given to those areas which represent a known risk to the enterprise's operations. The level of process maturity, process performance and audit reports will feed into the decision making process. Those areas that represent real risk to the business should be given priority.
