NEW QUESTION: 1

An account owner has created an IAM user with the name pass4test. The account owner wants to give EC2 access of only the US West region to that IAM user. How can the owner configure this?

- A. Create an IAM policy and define the region in the condition
- B. Create an IAM user in the US West region and give access to EC2
- C. It is not possible to provide access based on the region
- D. While creating a policy provide the region as a part of the resources

Answer: A

Explanation:

The IAM policy is never region specific. If the user wants to configure the region specific setting, he needs to provide conditions as part of the policy.
