### **NEW QUESTION: 1**

DRAG DROP

Drag each statement about EIGRP neighbor peering on the left to the matching peering type on the right

**Answer:**

Explanation:

### **NEW QUESTION: 2**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You administer devices in your corporate environment. The company allows employees to bring their own devices (BYOD). All BYOD devices must run Windows 10. For employees who elect to not use BYOD, the company provides a corporate laptop.

The company has a Microsoft Intune subscription and all BYOD devices have the Intune client installed. None of the BYOD devices are joined to the domain. All the corporate standard devices are managed by System Center Configuration Manager (SCCM).

You have an application that was developed in house that must be installed on all the BYOD devices.

The application must be installed automatically on the BYOD devices without any user intervention.

Solution: You upload the app to the Intune storage and make the app available.

Does the solution meet the goal?

**A.** No

**B.** Yes

**Answer: B**
