Our CGEIT study questions will not occupy you much time, It is human nature that everyone wants to have a successful career and make some achievements, Now our CGEIT exam dump materials will be your savior.

NEW QUESTION: 1

一般データ保護規則（GDPR）は、比例性と補助性の原則に基づいています。
この文脈での「比例」の意味は何ですか？

- A. 個人データは、目的を達成する他の手段がない場合にのみ処理できます。
- B. 要件の使用に応じて個人データを処理できます。
- C. 個人データは、目的に関連して適切かつ適切であり、過度であってはなりません。
- D. 明示的かつインフォームドコンセントがない限り、個人データを再利用することはできません。

Answer: C

Explanation:

Recital 170 mentions "Since the objective of this Regulation, namely to ensure an equivalent level of protection of natural persons and the free flow of personal data throughout the Union, cannot be sufficiently achieved by the Member States and can rather, by reason of the scale or effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective."

Proportionality says that personal data should be collected according to the purpose of processing, that is, proportional, and data that will not be used for the purpose should not be collected.

Subsidiarity is a principle that says that personal data can only be processed if there are no other means to achieve the objective. Therefore, the less personal data used, the less the possibilities of violating privacy.

NEW QUESTION: 2

A global Power Systems manufacturer sells Uninterrupted Power Supply (UPS) products through its online portal. To gain competitive advantage, the manufacturer wants to enhance the ability of buyers to select a desired configuration of the high-end UPS models through guided selling options on its online selling portal. The company's product development team has finalized the enhancements, and needs your help to get them implemented on their online selling portal that is supported by Oracle Cloud Configurator.

What four actions would you take in Oracle Cloud Configurator to enhance a buyer's experience? (Choose four.)

- A. You can allow buyers to raise requests if an expected product functionality is not offered.
- B. You can create rules that will guide users in creating a valid model.
- C. You can create user interfaces that will be dynamically presented to users based on the options chosen in the Configurator model.
- D. You can create enhancements to the model structure that supplements the imported configurable structure of a model item.
- E. You can enable a checkout option for a model when a valid configuration is finalized.

F. You can test the behavior of the configured model anytime when you are editing it.

G. You can display product reviews of customers who have purchased the same configuration earlier.

Answer: C,D,E,G

NEW QUESTION: 3

What is the primary difference between an organization and a division?

A. Organizations can be deleted, divisions cannot.

B. Positions are assigned to organizations, and not divisions.

C. Organizations are used for Access Control, divisions are not.

D. Divisions can be deleted, organizations cannot.

Answer: C
