NEW QUESTION: 1

The current implementation of Terraform import can only import resources into the state. It does not generate configuration.

A. False

B. True

Answer: B

Explanation:

Explanation

The current implementation of Terraform import can only import resources into the state. It does not generate configuration. A future version of Terraform will also generate configuration. Because of this, prior to running terraform import it is necessary to write manually a resource configuration block for the resource, to which the imported object will be mapped.

While this may seem tedious, it still gives Terraform users an avenue for importing existing resources.

<https://www.terraform.io/docs/import/index.html#currently-state-only>

NEW QUESTION: 2

What feature allows a user to group campaigns within a specific marketing program or initiative?

A. Campaign hierarchy

B. Campaign members

C. Campaign influence

D. Campaign lists

Answer: A

Explanation:

A campaign hierarchy allows you to group campaigns together within a specific marketing program or initiative, which enables you to analyze related marketing efforts more efficiently.

https://help.salesforce.com/articleView?id=campaigns_viewhierarchy.htm&type=5

NEW QUESTION: 3

Which of the following best describes IBM Sterling B2B Integrator's ability to accommodate complex communications requirements?

- A. IT has to stand-up an FTP server for business users to send files to trading partners.
- B. The product offers a selective set of commonly used industry protocols like FTP or HTTPS.
- C. Customers have to define and configure all the protocols they want to utilize.
- D. The product provides out-of-box protocol capabilities so customers never have to say "No" to a trading partners' communication requirement.

Answer: B
