NEW QUESTION: 1

You created a bills receivable that is factored with recourse and applied a wrong receipt to the short-term debt before the bill maturity date plus the risk elimination days.

Which actions are true? (Choose two.)

- A.** If the bills receivable is recalled before the maturity date, the status of the bills receivable is updated to Protested.
- B.** If the bills receivable is recalled after the maturity date, the status of the bills receivable is updated to Hold.
- C.** If the bills receivable is recalled after the maturity date, the status of the bills receivable is updated to Unpaid.
- D.** If the bills receivable is recalled after the maturity date, the status of the bills receivable is updated to Recall.
- E.** If the bills receivable is recalled before the maturity date, the status of the bills receivable is updated to Pending Remittance.

Answer: D,E

Explanation:

For bills receivable factored with recourse, receipts are applied to short term debt before the bill maturity date plus risk elimination days. For receipts applied to short term debt, use the Recall action to recall the bill receivable and reverse these receipt applications.
