The high-relevant and valid exam dumps are the highlights of FPA\_I valid dumps, which has attracted lots of IT candidates to choose for FPA\_I preparation.

### NEW QUESTION: 1

Which characteristic of community ports in a PVLAN is true?

- A. cannot communicate with other community ports in the same community.
- B. can communicate with isolated ports
- C. can communicate with promiscuous ports
- D. are separated at Layer 3 from all other ports

#### Answer: C

Explanation:

Explanation/Reference:

Explanation:

A community port is a host port that belongs to a community secondary VLAN. Community ports communicate with other ports in the same community VLAN and with promiscuous ports. These interfaces are isolated at Layer 2 from all other interfaces in other communities and from isolated ports within their private VLAN domain.

### NEW QUESTION: 2

Henry is the project sponsor of the JQ Project and Nancy is the project manager. Henry has asked Nancy to start the risk identification process for the project, but Nancy insists that the project team be involved in the process. Why should the project team be involved in the risk identification?

- A. So that the project team can develop a sense of ownership for the risks and associated risk responsibilities.
- B. So that the project manager can identify the risk owners for the risks within the project and the needed risk responses.
- C. So that the project manager isn't the only person identifying the risk events within the project.
- D. So that the project team and the project manager can work together to assign risk ownership.

**Answer: A**

Explanation:

Explanation/Reference:

Explanation:

The best answer to include the project team members is that they'll need to develop a sense of ownership for the risks and associated risk responsibilities.

Incorrect Answers:

B: The reason to include the project team is that the project team needs to develop a sense of ownership for the risks and associated risk responsibilities, not to assign risk ownership and risk responses at this point.

C: While the project manager shouldn't be the only person to identify the risk events, this isn't the best answer.

D: The reason to include the project team is that the project team needs to develop a sense of ownership for the risks and associated risk responsibilities, not to assign risk ownership.

### NEW QUESTION: 3
