The clients can download our products and use our GB0-391 study materials immediately after they pay successfully with their creditcards, In other words, you just pay little attention [050-6205-ARCHERPRO01 Test Certification Cost](#) to our information in our website, and then you can receive unexpected surprise.

Hope you achieve good result in the GB0-391 sure pass torrent, GB0-391 exam materials will ensure you that you will be paid back in full without any deduction.

The PDF version is simply a portable document copy of GB0-391 Questions and Answer Product, it is our GB0-391 exam questions, If you want to get the related certification in an efficient method, please choose the GB0-391 learning dumps from our company.

GB0-391 Valid Exam Pdf - Realistic Constructing Secure optimized WANs v2.0 Test Certification Cost

The answer is to participate in the H3CSE-Routing & Switching GB0-391 actual examination and

gain the certificate which is highly valued by the international organizations, One **GB0-391 Valid Exam Pdf** of the irreplaceable advantages of the electrical products is its efficiency.

First, you will take the GB0-391 exam, Our GB0-391 pass-sure materials: Constructing Secure optimized WANs v2.0 are time-tested products with high quality and efficient contents for your using experience.

Please look forward to our progress, First of all, of course you need GB0-391 exam dump if you want pass the exam and take an advantage position in the fierce competition world.

With so many advantages of our GB0-391 training engine to help you enhance your strength, why not have a try, Please login in your account and you can download the product from "My Downloadable Product".

NEW QUESTION: 1

Refer to the exhibit.

Which reason explains why the Cisco ASA appliance cannot establish an authenticated NTP session to the inside 192.168.1.1 NTP server?

- A. The ntp access-group peer command and the ACL to permit 192.168.1.1 are missing.
- B. The trusted-key number should be 1 not 2.
- C. The ntp source inside command is missing.
- D. The ntp server 192.168.1.1 command is incomplete.

Answer: D

Explanation:

<http://www.cisco.com/en/US/docs/security/asa/asa72/configuration/guide/basic.html#wp1067761>

```
hostname(config)# ntp server ip_address [key key_id] [source interface_name][prefer]
ntp server 192.168.1.1 2
```

NEW QUESTION: 2

You add a new prospect.

You send the prospect a sales quotation that contains 100 items.

The prospect agrees to all of the terms in the sales quotation.

You need to create a sales order and complete the sale.

What should you do?

- A. Confirm the sales quotation, convert the prospect to a customer, and then enter a new sales order.
- B. Convert the prospect to a customer, and then confirm the sales quotation.
- C. Cancel the sales quotation, and then enter a new sales order.
- D. Confirm the sales quotation, and then enter a new sales order.

Answer: A

Explanation:

A prospect is a temporary contact that is created by sales representative.

NEW QUESTION: 3

Which access technologies are supported by Cisco EPC?

- A. Wi-Fi
- B. 2.5G,3G,4G,femto,and Wi-Fi

- C. 4G and femto
- D. 2.5G,3G, and 4G

Answer: B

NEW QUESTION: 4

What is a disadvantage of using aggressive mode instead of main mode for ISAKMP/IPsec establishment?

- A. It does not support NAT traversal.
- B. It does not support dead peer detection.
- C. It does not hide the identity of the peer.
- D. It does not use Diffie-Hellman for secret exchange.

Answer: C

Explanation:

IKE phase 1's purpose is to establish a secure authenticated communication channel by using the Diffie-Hellman key exchange algorithm to generate a shared secret key to encrypt further IKE communications. This negotiation results in one single bi-directional ISAKMP Security Association (SA). The authentication can be performed using either pre-shared key (shared secret), signatures, or public key encryption. Phase 1 operates in either Main Mode or Aggressive Mode. Main Mode protects the identity of the peers; Aggressive Mode does not.
