OC-13 Training Materials - OC-13 Exam Dumps: Open ROADS Consultant - Digital Culture-Talent & Skills - OC-13 Study Guide

Only a ten days time is enough to cover up the content and you will feel confident enough that you can answer all OC-13 questions on the syllabus of OC-13 certification.

You may have no thoughts on studying and preparation, **OC-13 Questions Pdf** It is basically a software emulator that allows the users to run multiple tests, Once the latest Huawei OC-13 training materials have been developed successfully, our system will automatically send you an email at once.

Also, you can make notes on your papers to **OC-13 Questions Pdf** help you memorize and understand the difficult parts, And at the same time, the OC-13 learning guide must stand the test of the market and can make the customers understood by all over the world.

Obtaining certification will make you stand out from other people and make a big difference in your work, Pass the OC-13 exam, for most people, is an ability to live the life they want, and **OC-13 Questions Pdf** the realization of these goals needs to be established on a good basis of having a good job.

100% Pass 2021 OC-13 Questions Pdf - Realistic Open ROADS Consultant - Digital Culture-Talent & Skills New Study Plan

Hurry up to catch this chance for the best Huawei Other Certification OC-13 study material, Our Open ROADS Consultant - Digital Culture-Talent & Skills practice torrent dumps would be your best choice, If you are looking for consultation, then you can always get in touch with us and we

will provide you consultation regarding the Huawei Huawei Other Certification OC-13 exam.

Huawei OC-13 Exam Questions- 100% Money-Back Guarantee in Case of Failure, Why Proxy Exam at Errandsolutions, This choice will serve as a breakthrough of your entire career, so prepared to be amazed by high quality and accuracy rate of our OC-13 study guide.

You may wonder it will be a tough work to pass [C_THR81_2105 Free Study Material](#) such difficult test, This is the achievement made by IT experts in Errandsolutions after along period of time, And meanwhile, we keep a [OmniStudio-Consultant Materials](#) close eye on the changes of the exam to make sure what you buy are the latest and valid.

Just click to the free demos and you will get the exam questions to have a check, Different from traditional learning methods, our OC-13 exam products adopt the latest technology to improve your learning experience.

NEW QUESTION: 1

You need to mask tier 1 data. Which functions should you use? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

A: Default

Full masking according to the data types of the designated fields.

For string data types, use XXXX or fewer Xs if the size of the field is less than 4 characters (char, nchar, varchar, nvarchar, text, ntext).

B: email

C: Custom text

Custom StringMasking method which exposes the first and last letters and adds a custom padding string in the middle. prefix,[padding],suffix

Tier 1 Database must implement data masking using the following masking logic:

Topic 3, Litware, inc

Overview

General Overview

Litware, Inc, is an international car racing and manufacturing company that has 1,000 employees. Most employees are located in Europe. The company supports racing teams that complete in a worldwide racing series.

Physical Locations

Litware has two main locations: a main office in London, England, and a manufacturing plant in Berlin, Germany.

During each race weekend, 100 engineers set up a remote portable office by using a VPN to connect the datacentre in the London office. The portable office is set up and torn down in approximately 20 different countries each year.

Existing environment

Race Central

During race weekends, Litware uses a primary application named Race Central. Each car has several sensors that send real-time telemetry data to the London datacentre. The data is used for real-time tracking of the cars.

Race Central also sends batch updates to an application named Mechanical Workflow by using Microsoft SQL Server Integration Services (SSIS).

The telemetry data is sent to a MongoDB database. A custom application then moves the data to databases in SQL Server 2017. The telemetry data in MongoDB has more than 500 attributes. The application changes the attribute names when the data is moved to SQL Server 2017.

The database structure contains both OLAP and OLTP databases.

Mechanical Workflow

Mechanical Workflow is used to track changes and improvements made to the cars during their lifetime.

Currently, Mechanical Workflow runs on SQL Server 2017 as an OLAP system.

Mechanical Workflow has a named Table1 that is 1 TB. Large aggregations are performed on a single column of Table 1.

Requirements

Planned Changes

Litware is the process of rearchitecting its data estate to be hosted in Azure. The company plans to decommission the London datacentre and move all its applications to an Azure datacentre.

Technical Requirements

Litware identifies the following technical requirements:

- * Data collection for Race Central must be moved to Azure Cosmos DB and Azure SQL Database. The data must be written to the Azure datacentre closest to each race and must converge in the least amount of time.
- * The query performance of Race Central must be stable, and the administrative time it takes to perform optimizations must be minimized.
- * The datacentre for Mechanical Workflow must be moved to Azure SQL data Warehouse.
- * Transparent data encryption (TDE) must be enabled on all data stores, whenever possible.
- * An Azure Data Factory pipeline must be used to move data from Cosmos DB to SQL Database for Race Central. If the data load takes longer than 20 minutes, configuration changes must be made to Data Factory.
- * The telemetry data must migrate toward a solution that is native to Azure.
- * The telemetry data must be monitored for performance issues. You must adjust the Cosmos DB Request Units per second (RU/s) to maintain a performance SLA while minimizing the cost of the Ru/s.

Data Masking Requirements

During rare weekends, visitors will be able to enter the remote portable offices. Litware is concerned that some proprietary information might be exposed. The company identifies the following data masking requirements for the Race Central data that will be stored in SQL Database:

- * Only show the last four digits of the values in a column named SuspensionSprings.
- * Only Show a zero value for the values in a column named ShockOilWeight.

NEW QUESTION: 2

Enterprise Planning and Budgeting

Cloud (EPBCS) データロードテンプレートで許可される3つの機能はどれですか。

A.

単一のExcelテンプレートがカスタム変更なしですべてのフレームワークにデータをロードできるようにします

B. マッピングを必要とせずに、データをデータ管理に直接ロードします

C. アプリケーションの固有の要件に合わせてデータインポートプロセスをカスタマイズします

D. EPBCSデータのインポート機能を使用します

E. ビジネスプロセスデータを特定のフレームワークキューブにインポートする

Answer: C,D,E

Explanation:

Explanation

B: Essbase is selected as Source Type for the data import to load data in an Essbase data file format. If you select this option, you must choose a cube.

C: Open the templates in Microsoft Excel, and customize them to specify your business data.

D: To import data:
