Answer: D

NEW QUESTION: 2

Exhibit:

Which configuration below would result in this output of the show server?

- A.** Option A
- B.** Option B
- C.** Option D
- D.** Option C

Answer: D

NEW QUESTION: 3

You are creating a JavaScript object that represents a customer.

You need to extend the Customer object by adding the GetCommission() method.

You need to ensure that all future instances of the Customer object implement the GetCommission() method.

Which code segment should you use?

- A.** Option D
- B.** Option A
- C.** Option B

D. Option C

Answer: A

Explanation:

Explanation/Reference:

Explanation:

Object.prototype.constructor

Returns a reference to the Object function that created the instance's prototype. Note that the value of this property is a reference to the function itself, not a string containing the function's name. The value is only read-only for primitive values such as 1, true and "test".

The constructor property is created together with the function as a single property of func.prototype.

NEW QUESTION: 4

You are developing a page by using HTML5 and CSS3.

You need to ensure that the page meets the following requirements:

* The page must resize automatically for proper viewing on a variety of devices, such as desktop computers, mobile phones and tablets.

* The text "Ben Smith" must appear on the same line without splitting around the other HTML elements.

How should you complete the markup? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Box 1: box-sizing: border-box

Box 2: display: inline
