Answer: B

NEW QUESTION: 4

Your company has an intranet site that is hosted on Microsoft SharePoint Online. The site uses

the default Team Site template. Users create 75 subsites. Many of the subsites do not inherit permissions from the parent site.

You need to ensure that a specific user can administer all the subsites.

You must accomplish this goal by using the least amount of effort.

What should you do?

A. From the site settings of the root site, add the user to the Site Collection Administrators group.

B. From the site settings of the root site, assign the user the Full Control permission to the root site.

C. From the site settings of the root site, add the user to the Hierarchy Managers group.

D. From the SharePoint Online Administration Center, add a user profile property named Administrator and set the property value to True for the user.

Answer: A
